## 👤 Profile

Frontend Developer with expertise in React.js, Next.js, JavaScript, TypeScript, Node.js, Express.js, Firebase, SQL, and Python. Experienced in building responsive web applications, integrating RESTful APIs, and developing scalable solutions using modern web technologies. Passionate about Artificial Intelligence and actively learning machine learning concepts through practical projects. Strong problem-solving mindset with a commitment to building efficient, user-focused, and innovative software solutions.

## 🎓 Education

**Bachelor of Computer Applications**

Kurukshetra University, KuruKshetra (pursing)

## 🏢 Internship

### KBSIT-SOLUTIONS

- Developed responsive web applications using React.js and Next.js with a focus on performance and user experience.
- Built reusable and maintainable components, improving code consistency, development efficiency, and application scalability.
- Integrated REST APIs and implemented dynamic data rendering to enable seamless communication between frontend systems.
- Enhanced mobile responsiveness, cross-browser compatibility, and performance to deliver a smooth user experience across devices.
- Collaborated with team members using Git and GitHub for version control, code reviews, and project workflow management.
- Participated in testing, debugging, deployment, and maintenance of web applications while ensuring code quality and reliability.
- Applied component-based architecture, state management, and responsive design practices to build interactive, user-focused applications.
- Expanded technical knowledge beyond frontend development through hands-on learning and personal projects involving Node.js, Express.js, Python, and Artificial Intelligence concepts.

## 📁 Projects

### Bloomfield College Website

Live: <https://bloomfield.bloomfieldcollege.net/>

- Designed and developed the official college website with a responsive, user-friendly, and modern interface
- Built structured and well-organized pages for courses, admissions, institutional information, and academic content
- Implemented clean and responsive UI using HTML, CSS, Bootstrap, and JavaScript for better usability and accessibility
- Ensured cross-browser compatibility, mobile responsiveness, and optimized performance across multiple devices
- Improved website structure and navigation to deliver a seamless user experience
- Managed deployment, live updates, testing, and maintenance to ensure smooth website functionality
- Focused on responsive design principles, clean layouts, and frontend best practices for scalable development

### Food Ordering Website

Live: <https://foodie-ordering.netlify.app>

- Built a responsive food ordering and recipe discovery application using React.js and Tailwind CSS.
- Integrated TheMealDB and TheCocktailDB REST APIs to fetch and display dynamic meal and cocktail data.
- Implemented search, category filtering, and random recipe features for enhanced user experience.
- Developed reusable React components and optimized performance for seamless cross-device compatibility.
- Added interactive animations and smooth UI transitions using Framer Motion.

### Clinic Website UI

Live: <https://clinic-website-ui.netlify.app>

- Developed a fully responsive healthcare website interface using HTML, CSS, and JavaScript with clean and modern UI design
- Built structured sections including departments, doctors, services, appointment information, and responsive navigation flow
- Implemented responsive layouts, smooth interactions, and user-friendly interface design for improved accessibility and usability
- Ensured cross-browser compatibility, mobile responsiveness, and optimized frontend performance across multiple devices
- Focused on clean code structure, maintainable UI components, and frontend best practices for scalable development

## 🛠 Skills

**Languages & Framework :** HTML5, CSS3, JavaScript, React.js, Next.js, Typescript, Tailwind CSS, Firebase, Sql

**Tools & Other:** Git, GitHub, VS Code, JWT, Figma

**Soft Skills :** Problem Solving, Team Collaboration, Adaptability, Creative Thinking

## 🗣 Languages

■ English

■ Hindi
